

SHREYAS R B

SUMMARY

Seeking a challenging position in a reputed organization where I can learn new skills, expand my knowledge, and leverage my learnings at an entry-level position in the field of software engineering where I can apply my knowledge of programming languages, problem-solving skills, and passion for innovation to contribute to the development of the organization.

EXPERIENCE

Intern, 08/2023 - 09/2023

TITAN Company Limited - Hosur, India

- Designed and implemented a robust system for efficiently processing and managing Invoices

EDUCATION AND TRAINING

Bachelor of Technology, Computer Science And Engineering , Expected in 07/2025

Vellore Institute of Technology - Chennai, India

- Major in Artificial Intelligence and Machine Learning
- 8.97 GPA
- IEEE Computer Society Club Member

CERTIFICATIONS

- Full Stack Web Development with Immensphere in association with Verzeo (02/2022 - 04/2022)
- IITB Certificate for Completion of C Training (02/2022 - Present)
- IITB Certificate for Completion of C++ Training (02/2022 - Present)
- IITB Certificate for Completion of Python Training (02/2022 - Present)
- supervised, unsupervised and advanced learning algorithms of machine learning from Stanford University through Coursera (07/2023 - Present)

ACHIEVEMENTS

- Hackathon Spring 2023 (04/2023 - 06/2023)
- I participated in the Spring 2023 Hackathon conducted by Chainlink. The focus of the hackathon was to build real-time smart contracts using Chainlink data feeds.

PROJECTS

- Crowd Funding Smart contract using solidity
- This project aims to securely fund with crowd funding where we can eliminate the third party as well as keep track of money and transparency to all users who donate to a particular crowd fund
- Personal Portfolio
- Created a personal portfolio website using HTML, CSS, and JavaScript to showcase my web development skills and other projects. Implemented responsive design.
- Invoice Automation
- Designed and developed an invoice automation system using C# and .NET Framework to process and manage Invoices.
- Movie Recommendation System
- Developed a movie recommendation system using machine learning algorithms and web development technologies. Utilizing Python for data analysis, modeling and integrating the model with a web application using HTML, CSS, and JavaScript.

CONTACT

Address: Hosur, India 635126
